Multiple Primary Carcinomas Report of a Patient With Four ... PRIMARY carcinoma multiplex is a term used to describe the presence of two or more primary malignant neoplasms in the same or in separate organs of a patient. The occurrence of three or more primary malignant lesions in three or more organs is a rare finding. Types of Brain Cancer, Primary, Secondary, Benign ... Primary brain tumors start in brain tissue and tend to stay there. Secondary brain tumors are more common. These cancers start somewhere else in the body and travel to the brain. Brain Tumor Grades & Types - ABC2 Types of Primary Brain Tumors. There are many types of primary brain tumors. For adults, the most common brain tumor types are astrocytoma, oligodendroglioma and meningioma. Primary brain tumors are named according to the type of cells or the part of the brain in which they begin. For example, most primary brain tumors begin in glial cells.

Tumor Grade: Grading Systems & Treatment Options The importance of tumor grade in planning treatment and determining a patient's prognosis is greater for certain types of cancer, such as soft tissue sarcoma, primary brain tumors, and breast and prostate cancer.
